

Fakultätsöffentliche Präsentationen an der Fakultät für Lebenswissenschaften - BIOLOGIE

Termin: 13. Jänner 2017, 10.00-13.00 Uhr

Ort: Seminarraum Meeresbiologie 3.133, 1090 Wien, Althanstraße 14, UZA I

Präsentation (Uhrzeit)	DoktorandIn	Arbeitstitel	BetreuerIn	Dissertationsgebiet
10:00	Verena PÜHRINGER-STURMAYR	Factors affecting habitat use in Northern Bald Ibis (<i>Geronticus eremita</i>), a critically endangered bird species	Kurt KOTRSCHAL	Biologie
10:30	Sonia Victoria RODRIGUEZ MONJE	Comparative studies of Wnt gene expression in selected representatives of Mollusca	Andreas WANNINGER	Biologie
11:00	Johanna WIESINGER	Transcriptomic analyses and regulation of gene expression of the thaumarchaeon <i>Nitrososphaera gargensis</i> : Growth on cyanate and biofilm formation	Michael WAGNER	Biologie
11:30	Florian SCHARHAUSER	"Stilbonematology": Diversity and phylogeny of a marine bacteria-nematode symbiosis	Jörg OTT	Biologie
12:00	Sebastian SCHNEIDER	Effects of nutrition and the role of sulfate on N-fixation and nodule senescence in the symbiosis of <i>Lotus japonicus</i> and <i>Mesorhizobium loti</i>	Stefanie WIENKOOP	Biologie
12:30	Norbert TEUFELBAUER	Using citizen science data in bird conservation	Erwin NEMETH & Christian SCHULZE	Biologie
13:00	Ende
