

**Fakultätsöffentliche Präsentationen an der Fakultät für Lebenswissenschaften**

Termin: 14. Oktober 2016, 10.00-14.30 Uhr

Ort: Seminarraum 2E 411, 1090 Wien, Althanstraße 14, UZA II

Präsentation (Uhrzeit)	DoktorandIn	Arbeitstitel	BetreuerIn	Dissertationsgebiet
10:00	Marylaure DE LA HARPE	TESTING DRIVERS AND LIMITS OF SPECIES RADIATIONS USING POPULATION GENOMCS	Christian LEXER	Biologie
10:30	Andrea FERRETTI	How to recover after a long flight: rest patterns in migratory birds	Leonida FUSANI, Thomas RUF	Biologie
11:00	Hans-Jörg HELLINGER	Construction and Analysis of Viral Orthologous Groups (VOGs) and Inference of Hierarchical Viral Markers	Thomas RATTEI	Biologie
11:30	Uliana NEKLIUDOVA	Dynamics of sexual reproduction and embryonic incubation in marine bryozoans	Andrey OSTROVSKY	Biologie
12:00	David RAMLER	Heading for new shores: Effects of large-river restoration on ecological key groups of fish	Hubert KECKEIS	Biologie
12:30	Anita WILLIAM	Characterization of the effect of derivatives of the lectin-like domain of the tumor necrosis factor alpha on mutations in the epithelial sodium channel, which are correlated with the orphan disease pseudohypoaldosteronism type 1B	Rosa LEMMENS-GRUBER	Biologie
13:00	Stanislav ANDRANOVITŠ	Probing the role of voltage sensors in calcium channel inactivation and inhibition by antagonists	Steffen HERING	Pharmazie
13:30	Lisa BINDER	Monitoring of skin penetration of drugs and additives by ATR-FTIR and Raman spectroscopy as well as analysis of NMF, urea, water and cholesterol in skin by Raman spectroscopy	Claudia VALENTA	Pharmazie
14:00	Jaime Felipe GUERRERO GARZÓN	Discovery of novel biologically active molecules via conventional and genome-guided bioprospecting of actinomycete bacteria	Sergey ZOTCHEV	Pharmazie
14:30	Ende
