

Fakultätsöffentliche Präsentationen an der Fakultät für Informatik				
Termin: Donnerstag, 28. Jänner 2021				
Ort: online				
Präsentation (Uhrzeit)	DoktorandIn	Arbeitstitel	BetreuerIn	Dissertationsgebiet
14:00	Alex Markham, 11944983	Measurement Dependence Inducing Latent Causal Models	Grosse-Wentrup	Informatik
14:30	Anja Meunier, 11917192	Finding and leveraging similarities between deep neural networks and the brain	Grosse-Wentrup	Informatik
15:00	Robert Fritze, 09303403	Machine Learning and Data Mining Methods for Medical Applications	Plant	Informatik
15:30	Lena Bauer, 01025105	Mining High Dimensional Data with Applications in Medicine	Plant	Informatik
16:00	Lukas Miklautz, 01246128	Representation Learning for Clustering	Plant	Informatik
16:30	Ylli Sadikaj, 12042215	Embedding and clusterin multidimensional attributed networks	Plant	Informatik
