

### **Description of the intended doctoral project**

The description of the intended doctoral project is an important part of your application. It should clearly outline the intended doctoral project, its research questions and objectives, as well as the current state of research that provides the basis for the intended doctoral project.

Length: 2 to max. 4 pages in A4 (plus max. 1 page of bibliographical references)

Please make sure to address the following aspects:

- **Brief description of the content of the intended doctoral project**
  - What is/are the leading research question(s) and objective(s)?
  - How would you describe the relevance of your research topic and the research gap?
  - How does the intended doctoral project relate to the current state of research?
  
- **Any preliminary considerations about the theory and methodological approach**
  
- **Bibliography including information regarding study materials**
  - Primary sources (data, sources, text, archives, etc.)
  - List relevant literature (max. 1 page)
